RE: Inspections Scheduled for Tuesday, September 3rd, 2019

In preparation for the possible effects of Hurricane Dorian, it is anticipated that Palm Beach County Building Division staff will be performing Preliminary Damage Assessment on Tuesday, September 3rd to assess all detrimental impacts of the storm. As a result, normal Building Division operations, including inspections, plan review and permitting, are expected to be unavailable on Tuesday. We anticipate that all Division staff will be working to ensure that the full effects of the storm are accurately measured in order to trigger any potential federal aid that may be available to property owners.

We recognize and regret the impact this may have on construction projects and thank you in advance for your patience and understanding in this matter as we work collaboratively to speed recovery efforts.
